SUMMARY

A goal-oriented and adept in data analysis and visualization. Leveraging Excel, Power BI, SQL for translating raw data into valuable business insights. I look forward to work in an organization which provides me the opportunity to improve my skills and knowledge to grow along the organization's objective. With a keen eye for detail and a hunger for innovation, I am eager to contribute to a dynamic team and drive the company's success through data-driven strategies.

EXPERIENCE

COMELEC Bocaue Immersion September - November 2019

- Provided level 1 support - data encoding, organizing ballots, and simple data analysis.

ATA Salesforce Internship March - May 2024

- Assisted with user management, security settings, data maintenance, and dashboard analysis.

SKILLS SUMMARY

- **Technical Skills:** Data Preprocessing, Data Visualization, Interactive Dashboard, Statistical Modeling, Data Analysis, Descriptive, Predictive, and Prescriptive Analytics.
- **Tools:** Microsoft Excel, Power BI, SPSS, MySQL, WEKA.
- **Language:** SQL.
- **IT:** HTML, CSS, Operating System installation, troubleshooting, Word, PowerPoint.
- **Soft Skills:** Presentation, Reporting, Data storytelling, Attention to detail, Communication, Continuous learning, Time management, Report building, Problem-solving, Analytical and collaboration skills.

EDUCATION AND AWARDS

Dr. Yanga's Colleges, Inc. (Senior High School) 2018-2020

- With Honors (2019-2020)

Bulacan State University (College) 2020-2024

- Bachelor of Science in Information Technology Major in Business Analytics
- Consistent Dean's Lister (2020-2024)

MY FEATURED PROJECTS

Pharmaceutical Manufacturing Company Analysis

- The project involves identifying the year with the highest sales figures and improving the performance of the sales team and distributor. Microsoft Excel was utilized for data pre-processing, cleaning, and transformation, while SPSS was employed to obtain descriptive statistics, and Power BI for interactive dashboard and for summary.

World Population Analysis

- Microsoft Excel for data preprocessing and MySQL for in-depth analysis. It reveals that Asia consistently maintains a dominant position in terms of population on an annual basis and it plays in global population trends.

Data Analysis of E-Learning Course Data

- Analyzed learning course data to generate insights for the growth and improvement of Foresight BI curriculum. Transformed, cleaned, and analyzed the data for insights and build a dashboard using Microsoft Excel.

CERTIFICATES, ACHIEVEMENTS, AND OTHER EXPERIENCES

Best Presenter - 12th In-House of Completed Student Research (BuSU) | April 2024

Best Research in Business Analytics - 12th In-House of Completed Student Research (BuSU) | April 2024
